PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience through project-based web development, internships, and academic projects. Skilled in Python, Django, Django REST Framework, PostgreSQL, MySQL, REST APIs, HTML, CSS, JavaScript, Docker, Git, Jenkins, and AWS. Passionate about backend development and eager to contribute to scalable web applications and continuously enhance software development skills.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Project-Based) | CodingAI | October 2025 – April 2026 | Remote / India

- Maintained and enhanced the company's production website using Python, Django, PostgreSQL, HTML, CSS, and JavaScript.
- Implemented new features, fixed bugs, and improved website functionality based on project requirements.
- Developed and integrated REST APIs for backend communication and data management.
- Collaborated remotely with the development team using Git and participated in testing using Postman.
- Assisted in deployment and maintenance activities while ensuring application reliability.

DevOps Engineer (Intern) | Rooman Technologies – NSDC Internship | December 2024 – May 2025 | Bangalore, Karnataka

- Built CI/CD pipelines using Jenkins, Docker, and Git to automate application deployment.
- Containerized web applications using Docker and Docker Compose.
- Managed GitHub repositories, branching strategies, and pull requests.
- Worked with AWS EC2 and Linux servers during deployment and troubleshooting.
- Monitored application logs and resolved deployment issues.

PROJECTS

GoldenCrumbz – Interactive Baking Learning Platform

Technologies: Python, Django, PostgreSQL, HTML5, CSS3, JavaScript, Bootstrap, OTP Authentication

- Developed a full-stack Django web application featuring categorized recipes, video tutorials, and OTP-based user authentication.
- Integrated PostgreSQL with Django ORM to implement CRUD operations and secure content management for administrators.
- Designed a responsive user interface using HTML5, CSS3, JavaScript, and Bootstrap for seamless cross-device compatibility.
- Implemented role-based access control to manage administrator and user permissions securely.

Animal Vocalization Recognition – ML Audio Classification Model

Technologies: Python, CNN, Scikit-learn, NumPy, Pandas, Librosa

- Developed an audio classification model using Python, CNN, and MFCC feature extraction to recognize animal vocalizations.
- Used Scikit-learn, NumPy, and Pandas for audio preprocessing, feature engineering, model training, and performance evaluation.
- Enhanced model accuracy through hyperparameter tuning and data augmentation techniques on audio datasets.

EDUCATION

BE with Honours in Computer Science Engineering (VTU)

Dec 2021- June 2025

- PA College of Engineering, Mangalore
- Academic Topper, Department of CSE (Batch 2025)

CGPA: 9.3/10

Pre University College

June 2019- July 2021

- Mahesh PU College

Percentage: 88%

SSLC (CBSE)

June 2018-April 2019

- Amrita Vidyalayam, Karwar

Percentage: 85%

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript
- **Backend:** Django, Django REST Framework, REST APIs
- **Frontend:** HTML5, CSS3, Bootstrap, React, Responsive Web Design
- **Databases:** PostgreSQL, MySQL, SQL, Django ORM
- **DevOps & Tools:** Git, GitHub, Docker, Jenkins, CI/CD Pipelines
- **Cloud & Tools:** AWS (EC2, S3), Postman
- **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, DBMS, SDLC, CRUD Operations

NON-TECHNICAL SKILLS

Problem Solving | Communication | Team Collaboration | Adaptability

CERTIFICATIONS & ACHIEVEMENTS

- **Academic Topper** – Department of Computer Science & Engineering (Batch 2025)
- **State Level Athlete** – Sahodaya Games (2017)
- Python Full Stack Development (8 Months) – Q-Spiders, Bangalore
- Front-end Development using React.js – IEEE
- Python for Data Science – Infosys Springboard
- Machine Learning with Python – IBM
- Big Data 101 – IBM
